Daft Punk

SITE MAP

OVERVIEW OF PROJECT

Some of the challenges are: making a calendar for the performance section which shows the date of future performance. Forum is also needed in the site that people can discuss and talk about the artist.

SITE GOALS

Description of Daft Punk, having all the information about daft punk and their performance

SITE MESSAGES / MOODS

The message that the site will give are: Artist's history, influence, image and visual components, appearance in media, tribute and awards.

The moods of the site will be mainly darker color, which give people a mood of mysterious.

BRIEF DESCRIPTION OF SITE USERS / TARGET AUDIENCE

The site users and target audience should be people who are interested in Daft Punk and who is a fan of Daft Punk, because the site will give all the information about the artist's information such as performance and history and awards.

REQUIREMENTS FOR DELIVERY

Support browsers: Google Chrome, Opera, Microsoft edge, Firefox and internet explorer.

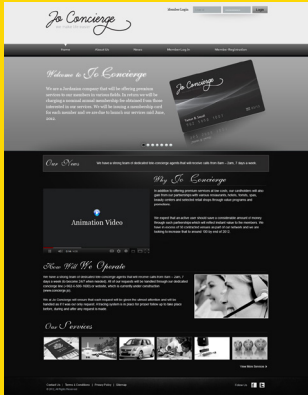

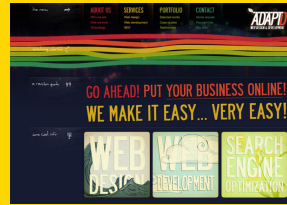

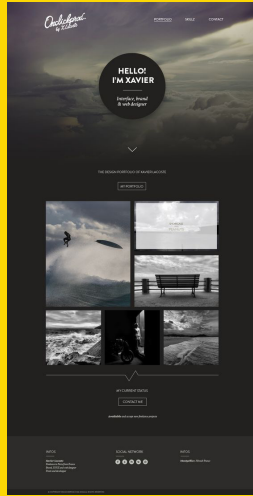

Minimum connection speeds: 1.5 megabits per seconds.

Constraints on the type of content: Anything not related to Daft Punk.

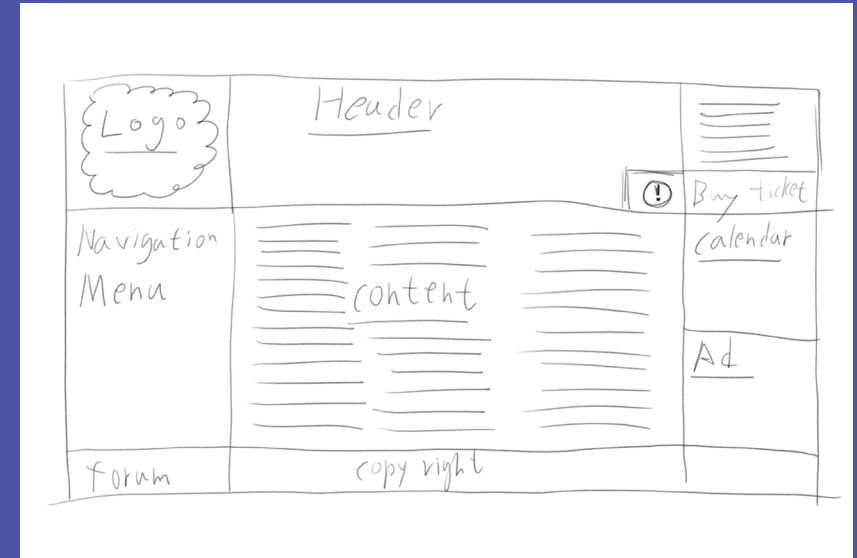

LIST OF WHAT IS NEEDED FOR THE SITE:

mainpage: navigation bar, pictures, text(introduction), multimedia(Youtube), links(related to the artist), forums related to the artist, calendar about the performance or songs in the future, and the deals and advertisement about the artist.
